

Orlando FSDO FAAST Team presents:

## **Weather or Not**

Weather or NOT - do you sometimes have difficulty making a Weather Go/No Go decision after getting your weather briefing? Are you sometimes unsure that you've received all the pertinent information that is available? Perhaps you've felt overwhelmed by the amount of data available for a weather briefing and have been unable to process it. Where do other pilot's go to get their weather briefings?

Introducing the new Graphical Forecast for Aviation (GFA). This new website from aviationweather.gov presents all the weather items that a pilot may want to forecast for a flight. Join other interested pilots for this IMC Club / WINGS Seminar as we will explore the elements of this website for a more educated Risk Assessment.

Come join the discussion with your fellow aviators and learn how get a more meaningful weather briefing. If you have a favorite Weather Website, please share it with others as well during this seminar which will offer you 1 Advanced or Basic Knowledge Credit for your next WINGS phase and will also serve as the monthly IMC Club meeting (EAA chapter members are already IMC Club members.) Your opinion and insights are valuable to other pilots with less experience than you may have; please participate and share.

## Event Details

**Mon, Jul 18, 2016 - 19:00 EDT**  
**Vigilante Room, Sanford Airport**  
**(KSFB)**

1200 Red Cleveland Blvd., Sanford,  
FL
